Education Resources

Currently, Pakistan is spending less than **2%** of its Gross Domestic Product (GDP) on Education.

Pakistan spends around **7 times** more on the military than on primary education.

Sustainable Development

According to the UNDP 2013 report on progress on MDGs, Pakistan is on track in promoting sustainable development (MDG 7) with four out of seven indicators:

Protecting areas for wildlife conservation (**11.6%** against the target of **12%**)

Reducing sulphur content in high speed diesel,

Improving GDP per unit energy (measure of energy efficiency)

Improving access to safe drinking water (**89%** against the target of **93%**).

Currently **72%** of the populations have access to this facility against a target of **90%**.

Made progress on increasing forest cover (**5.2%** against the target **6%**).
